TELLER HARRY BELL CAUGHT. RIVERSIDE BANK EMPLOYEE

FOUND IN PHILADELPHIA. He Fled in March After Taking \$26,000

From the Bank -- Had Been Sheltered by a Relative of His Brother's Wife -Identified and Held for Extradition Harry C. Bell, the young man who until

March 28 last was receiving teller of the Riverside Bank, and who disappeared at that time leaving a shortage of \$26,000 in the bank's accounts, was arrested yesterday afternoon in Philadelphia. Bell, who was living with his brother-in-law's sister in Ellwood, a Philadelphia suburb, was much surprised at seeing Detective Sergeants Cray and Kelly, whom Capt. Titus had sent over to arrest him. He made no attempt to conceal his identity. He was taken to a police court and there held to await the requisition, which the Governor of New York will make upon the Governor of Pennsylvania.

The arrest of Harry Bell was the result of six weeks' search on the part of the bank's officers and the Pinkerton men who

were placed on the case. Supt. Dougherty of the Pinkerton force found that Bell's nearest living relative found that Bell's nearest living relative was a sister, Mrs. John C. Wickes of 81 Morningside avenue, and last Monday he became convinced that young Bell was hiding with some of the Wickes family who live in Philadelphia. He consulted the Philadelphia city directory and found that Mrs. Ellen L. Wickes lived at 3119 Page street, Ellwood. Then he talked with the Pinkerton office in Philadelphia, over the telephone. ton office in Philadelphia over the telephone

and men were set to watch the house.

Early this morning they saw their man slip from Mrs. Wickes's house and hurry over to a nearby barber shop for his morning shave. Cashier Bizallion of the Riverside Bank and Detective Sergeants Cray and Kelly went to Philadelphia to make the necessary identification and Bell's arrest Colleged.

Little is known of the young man's whereabouts since his defalcation. The Pinkerton people believe that he has been to the cities of the middle West and that he has some

bank's money with him yet.
was a member of the West Side
C. A. and Dr. MacArthur's Calvary Baptist Church and was engaged to be married to Miss Belle Matthews of 360 West Fifty-first street.

PHILADELPHIA, Pa., May 13.—Cashler Bizallion was at detective headquarters when Bell was taken there. All Bell would say was: "You have arrested me now and I am willing to go back to New York without requisition. I do not admit that I am a thief and will not. That remains for you to prove and by the time you have accomplished that there will be develop-ments that will be very interesting to the

From other things Bell said it appears that he has seen several of the bank directors since be has been here and returned to them some checks. The police here think he intended to convey the impression that he would make disclosures that would impli-cate others who had access to the funds of

PLANT SYSTEM MERGER.

Atlantic Coast Line Directors Meet to Arrange the Details.

BALTIMORE, Md., May 13 .- A meeting of the Board of Directors of the Atlantic Coast Line Railroad Company was held to-day at the Baltimore office of Henry Walters, Vice-President of this company and President of the Atlantic Coast Line Company of Connecticut, which is the parent company of the system. The meeting was held to perfect some details of the merger of the Plant system with the Atlantic Coast Line. The consolidation of the Savannah, Florida and Western Railway Company, which is the major part of the Plant system, with the Atlantic Coast Line Railroad Company was accomplished to-day when there was filed with the Secretary of State of each of the six States through which the two properties run a copy of the merger agreement adopted at the stockholders' meeting in Richmond, Va., yesterday, These copies were filed in Virginia, North and South Carolina, Georgia, Alabama and Florida.

The consolidation covers directly 3,500 miles of railroad. The Florida Southern, St. Johns and Lake Eustis and Sanford and St. Peterburg railroads are not in-cluded at present. All the capital stock was acquired under the purchase from the Plant Investment Company of the railroad properties composing the Plant system. There will be a meeting of the stock-holders of the Atlantic Coast Line Railroad Company as consolidated on June 16 to authorize an issue of consolidated bonds, which will be used to retire certain underlying mortgages at once, and the remainder of the underlying mortgages as they mature; also to furnish what money is required to carry into effect theterms of the consolidation. This mortgage will be limited to a maximum of \$20,000 a mile, which, of course, includes all of the underlying mortgages. As the present mileage is 3,500 miles, the issue would not exceed \$70,000,000. The underlying bonds immediately to be retired are an issue of \$12,450,000 of Consolidated Savannah, Florida and Western bonds, which have not been marketed.

C. F. & I. SURPLUS REDUCED. Partly by the Dividends Paid on the Common Stock.

A financial statement of the Colorado Fuel and Iron Company for the nine months which ended on March 31, is published elsewhere. Its most interesting feature is that it shows that the surplus of the company was drawn upon to pay dividends declared on the common stock.

The surplus on June 30, 1901, was \$2,006. 476; the surplus now is \$1,246,721, and common stock dividends of \$1,206,721 have been President J. C. Orgood reports as fol-

COLD WEEK FOR CROPS. infavorable to Growth-Winter Wheat

Generally Doing Well. WASHINGTON, May 13.-The weekly crop bulletin of the Weather Bureau, issued today, gives the following general sum-

From the upper Mississippi Valley eastward to the New England and Middle Atlantic coasts the week was decidedly cold and unfavorable to growth, with light to heavy frosts, causing much damage to fruit in the northern portion of the Middle Atlantic States and in New England.

The temperature conditions in the Southern States, Missouri Valley and throughout the Rocky Mountain and Pacific coast districts were unfavorable, highly so on the north Pacific Coast. Drought continues in Florida and over portions of the East Gulf and South Atlantic States, and rain is generally needed in the Ohio Valley and generally needed in the Ohio Valley and Middle Atlantic States. Rains have afforded relief locally in the

Rains have afforded relief locally in the middle and southern Rocky Mountain dis-tricts, but more is needed in those sections. The greater part of the Upper Lake region and portions of the upper Mississippi, upper Missouri and Red River of the North val-leys are suffering from excessive moisture. Owing to excessive rains little or no corn has yet been planted in Minnesota and Wisconsin, and planting has been delayed in South Dakota and northern Iowa, but generally throughout the Central valleys and Middle Atlantic States this work has made rapid progress.

leys and Middle Atlantic States this work has made rapid progress.

The past week has not been unfaverable to winter wheat and generally the crop has made satisfactory progress, the least favorable reports being received from the Ohio Valley and Middle Atlantic States, while a decided improvement is reported from Nebraska. The crops have made slow growth in the Ohio Valley and Middle Atlantic States, but has advanced rapidly in the lower Missouri Valley, in the Southern portion of which it is now heading.

COPPER SLIGHTLY HIGHER. Amalgamated Using a Walking Stick, Not Holding an Umbrella.

There was a somewhat improved demand or copper in the local metal market yesterday and prices were quoted slightly terday and prices were quoted slightly higher. A representative of the United Metals Selling Company, the selling agents of the Amalgamated, said that the firmness of the market was due to an apparently more satisfactory condition of the trade. "If our competitors," said this man, "desire to put up the price of the metal we will follow them. The Amalgamated Company is meeting the reacher as it exists, that is is meeting the market as it exists—that is, it is selling copper at the market. It is no longer 'holding the umbrella' over the market. It is more disposed to use a walking stick than carry an umbrella."

WEBB-MEYER INQUEST. Holders of the Slumped Stocks Appoint

a Committee of Inquiry. A sort of protecting committee was appointed yesterday at a meeting at 25 Broad street, of Wall Street brokers caught with Webb-Meyer stocks in the accounts with Webb-Meyer stocks in the accounts they were carrying for customers. This committee will, it is understood, look into the merits of the various properties and endeavor to find a market for the stocks. Arthur L. Meyer, who called the meeting, was not present. Lawyer P. Chauncey Anderson presided. No financial statements of the companies had been prepared for the meeting. A statement was given out inviting holders of the stocks to send their names and addresses to Mr. Anderson at 25 Broad street and get such information as he may be able to give them. information as he may be able to give them. He is chairman of the committee.

Gould's Western Maryland Plans. Counsel for George J. Gould met repre sentatives of the city of Baltimore and of the Western Maryland Railroad in this city yesterday and discussed details for the transfer of that railroad property to the Gould interests. The necessary money to build connecting links between the Western Maryland, the West Virginia Central and Pittsburg, and the Wabash system will be provided very soon. It is possible that the Western Maryland and the West Virginia Central will be consolidated in Central will be consolidated into one corporation and that President J. M. Hood of the

Western Maryland will be chief executive of the consolidated company.

Notes From Wall Street. John Sherman Hoyt, Albert C. Bostwick and Bradford B. McGregor, all of this city. were elected new directors of the Manhattan Life Insurance Company at the annual meet-Life Insurance Company at the annual meeting of that company yesterday.

The directors of the Bond and Mortgage Guarantee Company have voted to recommend that the capital stock of the company be increased from \$1,000,000 to \$2,000,000, the new stock to be issued pro rata to the present stockholders at \$110

A seat on the New York Stock Exchange has just sold for \$75,000, an advance of \$2,000 from the last previous sale

The Morton Trust Company loaned several million dollars on call yesterday at 6 per cent.

Hotels and **Boarding Houses** In Colorado

There is a popular idea that prices for everything in a comparatively new country like Colorado are very high. That it costs money out there "every time you move." That is not at all correct. You can live in Colorado. comfortably and well for a moderate sum. At the hotels, boarding bouses and ranches you can secure excellent quarters and capital face for from \$8. to \$10 a work and even less. Our Hand-Book of Colorado tells all about prices, gives the names and addresses interesting information. No charge for this losse. This assumer we are going to sell tickets to Colorado at less than half fare, so as to enable people of modernic amount to spend their sucution in glotions colored.

FINANCIAL AND COMMERCIAL.

TURSDAY, May 13. There was a decided change in the sentiment of the speculative community as Coal & Iron Co. compared with yesterday. It was re-flected in prices rather than in the volume of trading. The total transactions were nearly 170,000 shares, or 25 per cent. less than yesterday. At the same time the decline in prices sustained yesterday was in the main recovered. The scattered liquidation which was the feature of yesterday's market appears to have run its course and was followed by moderate buying for both accounts. This was due chiefly to a better understanding of the operations that have influenced the money market during the last six or seven business days. Within that period an unusually gentlemen are soliciting the cooperation of Stock Exchange firms and stockholders of record in order to reorganize the present board and elect large amount of money has been shifted in connection with various operations which are now completed. The principal payments made during the last week are as follows: \$12,500,000 on account of the transatlantic shipping syndicate, \$6,000,000 on account of the purchase of the Choctaw, Oklahoma and Gulf Railroad, \$24,000,000 on account of the issue of Rock Island Railroad collateral trust bonds, sold to finance the acquisition of the Choctaw and allied railroads; \$8,000,000 subscribed for the Illinois Central stock interest certificates of the Railroad Securities Company, \$10,000,000 distributed among the members of the United States Steel syndicate and \$21,500,000 paid on account of subscriptions to the new stock of the New

York Central railroad company. This makes a total of \$82,000,000 that has changed hands in the last week. A considerable percentage of this money has been remitted out of town, part of it in eash. Another operation that took place to-day was the distribution of \$5,000,000 NEW ORLEANS CITY AND LAKE BAILROAD COMPANY BONDS. that had been paid into the syndicate underwriting the readjustment of the capitalization of the Mexican National Railroad. The distribution of this money. obviously diminished the supply of loanable capital for twenty-four hours, as did the payment of \$10,000,000 to the members of the syndicate that underwrote the floatation of the United States Steel Corporation. It is evident that these operations, which were made almost entirely by the passing of checks, have not diminished the cash resources of the banks and other institutions, but they HAIGHT & FREESE have temporarily shifted deposit accounts and loans to an extent that has had an important bearing upon the money market. CO. 53 B'way, N. Y. That market was decidedly easier to-day. the highest rate being 8 per cent. Con-STOCKS, BONDS, GRAIN, COTTON. siderable amounts were loaned below 6 We will be pleased to send you upon request our 400 page cloth bound, illustrated "Guide to Investors," also Stock and Cotton Market Letters. Issued gratis, malled free. per cent., which was the ruling rate. The easier condition of the money market resulted not only from the readjustments following the operations that have been N. Y. Security and Trust Co., enumerated, but also from further free Capital and Surplus, \$4,000,000. offerings of loan bills in the foreign exchange market. There was also a moderate amount of bills offered against the purchase of about 25,000 shares of stock by foreign arbitrage houses on balance, and one of the larger trust companies drew over \$3,000,000 on London against the sale of property in this country to an English syndicate. The last operation was important, as it supplied the Street with funds 41 Wall Street. which will not have to be returned to the other side. The trust company making this transaction was a liberal lender on the

exchange to-day at 6 per cent. That money is returning to this centre from the interior is plainly indicated by the rate of New York exchange at Chicago, which is 25 cents per thousand premium, and at one time to-day was 50 cents. In forecasting the future of the money market the probability of heavy exports of breadstuffs and other staple products should not be overlooked. The indications are that, if the speculation in securities continues in narrow limits, no apprehension need be felt regarding the immediate future of the money market. The experience of the last few days shows that there has been no change in the operations of the law of supply and demand, and that high rates at this centre will attract to it large amounts of money from the interior and from abroad until an equilibrium is restored. The foreign exchange market,

as described in detail further on in this column, was weak at a lower level. The heaviest trading in stocks was again in Union Pacific. The fluctuations in it were narrow, but the market for it was firm throughout. The noteworthy net gains were in St. Paul, which was second in respect to activity; Missouri Pacific, New York Central, Reading, Southern Pacific, Atchison and Louisville and Nashville. The last named was exceptionally strong, scoring a net gain of 21/2 points. The market for Granger and other Western trunk line shares was not affected in the slightest degree by the indicated falling off in the yield of winter wheat, as compared with last year's crop. Neither were the anthracite coal stocks adversely affected by indications that the convention of the delegates of the various miners' organizations will vote to-morrow to make permanent the present suspension of work. more higher than yesterday were Canadian Hudson and Kansas City Southern issues.

Less active issues that closed a point or Pacific, Chicago Great Western, Chicago, Indianapolis and Louisville, Delaware and In the industrial group Amalgamated Copper was again the leader in respect to activity, and closed nearly a point higher on the publication of both domestic and foreign trade reports telling of an improving demand for copper, which is reflected in slightly higher prices and in a dimnution of the stocks on hand. Of the less active industrials Colorado Fuel, Ameriean Smelting and Refining common, Consolidated Clas. American Cotton Oil and North American were conspicuous at ne advances of a point or more. The bond wall to end and reasonable market recovered to union with the stock jist but the dealings were unimportant On the 'Curb' the heaviest transactions were in General Curriage, at a recusery to 5. The speculation in this specialty at present is towerd upon the possibilities suggested by a reorganization of the compair and its remarkan of active opera-tions. Northern Escarible. Which sold extyphend doctioned to party, presentably or the publication of acidending despatches from 8: Faul that the managers of the company are convinced that the discounan against that the seal against that corporathen. There as no bears believer for times reports, on the contract, the capitalists more incarrie interested in the Northread constraint front any are confident that their position will resultantly by attended in course Tours and moderate deplings is that Francisco Signifier assure and state eccurioses to United States State for purphysic in at an animania to \$955, and in count Copper at Mighth!
